

H2Olife is a group of people that are passionate about making a difference. Working under Thomas Road Baptist Church, we are 100% volunteers, so there is no overhead or salaries to pay out. All of our fundraising efforts are unwritten by our group for the simple reason that we want 100% of all funds to go directly to those in need.

.... **100%** Projects

... **0%** Overhead

.... **0%** Salary

We are passionate to share outside the walls of our church by actively participating in missions around the world. H2Olife wants to reach the "uttermost parts of the earth." We don't want to make a profit; we want to make a difference by developing Christ followers who love God and love people.

Help us change the world  
one well at a time.

Making a difference

H<sub>2</sub>Olife

one well at a time

Rio Hondo, Guatemala

Our greatest fear should not be of failure but of  
succeeding at things in life that don't really matter.

-Francis Chan

## Why H2Olife?

Nearly 1 billion people around the world lack access to clean water; 90 percent are children.

Giving clean water to a village opens the doors to a world of change. H2Olife is the catalyst for overcoming poverty and creating opportunity for a new beginning. Clean water changes everything for those in need.

Through the gift of clean water, not only is the cycle of illness broken, but we can also provide:

- Time spent on an education instead of a daily search for water sources
- The creation of jobs and occupations
- Water for crops and agriculture development
- Hope for a future

Over 1.5 million children die yearly due to water related illness. With your help we can change that number. Through donations, fundraising, and awareness, we can make a difference one well at a time.
